Akshay K. Jagadish

Princeton, USA | akshaykjagadish@gmail.com | akjagadish.github.io | akjagadish | akjagadish | Scholar

Position

Peretsman-Scully Postdoctoral Fellow — *Princeton, USA*
Princeton University — *Aug. 2025 - ongoing*
Independent researcher in the Natural and Artificial Minds program at the Princeton AI Lab
Mentors: Prof. Tom Griffiths, Prof. Nathaniel Daw, and Prof. Brenden Lake

Education

Ph.D. in Computer Science — *Tübingen, Germany*
University of Tübingen · Max Planck Institute for Biological Cybernetics · Helmholtz Munich — *2021 - 2025*
Thesis: Meta-Learning: A Unifying Framework for Testing Theories of Human Learning

M.Sc. in Computational Neuroscience — *Tübingen, Germany*
University of Tübingen · Max Planck Institute for Biological Cybernetics — *2018 - 2020*
Thesis: Compositional Reinforcement Learning in Minds and Machines

B.Tech. in Electrical and Electronics Engineering — *Surathkal, India*
National Institute of Technology Karnataka · École Polytechnique Fédérale de Lausanne — *2013 - 2017*
Thesis: Structural and Functional Correlates of Personality

Honors, Awards, & Fellowships

2026	**Top Reviewer**, Top 10% reviewer (main track) for International Conference on Learning Representations	*Brazil*
2026	**NatGeo Storyteller**, Top 12 members selected to participate in National Geographic Storytellers Workshop	*USA*
2025	**Top Reviewer**, Top 10% reviewer (main track) for Neural Information Processing Systems (NeurIPS)	*USA*
2025	**Peretsman-Scully Postdoctoral Fellowship**, Top 5 candidates to secure a fellowship from the Scully Peretsman Foundation to conduct independent research in the Natural and Artificial Minds Program at the Princeton AI Lab.	*USA*
2025	**Ph.D. magna cum laude**, for exceptional research conducted during doctoral studies	*Germany*
2024	**Top Reviewer**, Top 10% reviewer (main track) for Neural Information Processing Systems (NeurIPS)	*Canada*
2024	**ELLIS Winter School on Foundation Models**, Top 40 students selected from 607 to present their research	*Netherlands*
2023	**Analytical Connectionism**, Top 36 students selected to attend the summer course at the Gatsby Computational Neuroscience Unit in University College London	*UK*
2020	**SMARTSTART Fellowship in Computational Neuroscience**, Top 15 students awarded a travel budget of €1000 and mentorship from Prof. Peter Dayan and Prof. Fabian Sinz	*Germany*
2019	**Dean's List**, Top 3 performers in the summer semester for M.Sc. program in Computational Neuroscience	*Germany*
2018	**Dean's List**, Top 3 performers in the winter semester for M.Sc. program in Computational Neuroscience	*Germany*
2018	**Max Planck Society Scholarship**, Top 5 students selected to undertake M.Sc. in Computational Neuroscience at the University of Tübingen.	*Germany*
2017	**Harvard Young Scientist Development Program**, Top 25 students selected for training in neuroscience.	*USA | India*
2016	**Summer Research Program**, Top 20 students funded to conduct research at EPFL.	*Switzerland*
2016	**Summer Research Fellowship Program**, Top 10% students funded to conduct research at the Indian Institute of Science.	*India*
2013	**Ranked Top 0.1%**, Karnataka Common Entrance Test among 150,000 students	*India*
2013	**Ranked Top 0.1%**, COMED-K among 200,000 students	*India*
2011	**Most Consistent Performer of the Batch**, Presidency School	*India*

Funding

2025 **Peretsman-Scully Postdoctoral Fellowship**, Procured funding of $300k in total salary and $30k research funds from the Scully Peretsman Foundation for a period of three years to carry out independent research at the Princeton AI Lab. *USA*

2020 **SMARTSTART Fellowship in Computational Neuroscience**, Procured travel budget of €1000 from the Bernstein Family Foundation to attend neuroscience conferences and workshops within Germany. *Germany*

2018 **Max Planck Society Scholarship**, Procured funding of €11k from the Max Planck Society to undertake Master's study in Computational Neuroscience. *Germany*

2016 **Summer Research Program**, Procured funding of $10k from EPFL to undertake a summer internship for a duration of three months. *Switzerland*

2016 **Summer Research Fellowship Program**, Procured stipend of $150 from the Indian Academy of Sciences to undertake an internship at the Indian Institute of Science, Bengaluru for a duration of two months. *India*

Experience

Doctoral Thesis — *Tübingen, Germany*
University of Tübingen · Max Planck Institute for Biological Cybernetics · Helmholtz Munich — *Apr. 2021 - Aug. 2025*
Computational Principles of Intelligence Lab · Advisors: Dr. Marcel Binz and Prof. Eric Schulz

Master Thesis — *Tübingen, Germany*
University of Tübingen · Max Planck Institute for Biological Cybernetics — *Jun. 2020 - Dec. 2020*
Computational Principles of Intelligence Lab · Advisors: Prof. Peter Dayan and Dr. Eric Schulz

Graduate Research Assistant — *Tübingen, Germany*
Max Planck Institute for Biological Cybernetics — *Nov. 2019 - Feb. 2020*
Computational Neuroscience Lab · Advisor: Prof. Peter Dayan

Graduate Research Assistant — *Tübingen, Germany*
University of Tübingen — *Nov. 2018 - Mar. 2021*
Sinz Lab · Advisors: Prof. Fabian Sinz and Prof. Edgar Walker

AI Researcher — *Mumbai, India*
Wadhwani Institute for Artificial Intelligence — *May 2018 - Sep. 2018*
AI for Social Impact · Advisor: Dr. Rahul Panicker

Postbaccalaureate Research Assistant — *Minnesota, USA*
University of Minnesota, Twin Cities — *Jul. 2017 - Feb. 2018*
Computational Visual Neuroscience Lab · Advisor: Prof. Kendrick Kay

Undergraduate Thesis — *Lausanne, Switzerland*
École Polytechnique Fédérale de Lausanne — *Aug. 2016 - May 2017*
Medical Image Processing Lab · Advisors: Prof. D. van de Ville and Prof. P. Giannakopoulos

Undergraduate Research Assistant — *Bangalore, India*
Indian Institute of Science — *May 2015 - May 2017*
Computational Tomography Lab · Advisor: Prof. Kasi Rajgopal

Organization

2024	**Mentor**, "AI Exploration Lab" at the Princeton Data and Intelligent Systems	*USA*
2026	**Co-organizer**, Workshop on "AI for Scientific Discovery" at the Diverse Intelligences workshop series	*USA*
2024	**Co-organizer**, "Connecting Minds and Machines: a Foundation Model Approach to Learning" symposium at Helmholtz Pioneer Campus, Munich	*Germany*
2024	**Co-organizer**, "In-context learning in natural and artificial intelligence" workshop at CogSci 2024	*Netherlands*
2023	**Co-organizer**, Laboratory Retreat of Computational Principles of Intelligence Lab	*Germany*
2022	**Co-organizer**, Computation and Cognition Tübingen Summer Internship (CaCTüS) aimed specifically at young scientists held back by personal, financial, regional or societal constraints.	*Germany*
2020	**Volunteer**, Machine Learning Summer School (MLSS) held at MPI for Intelligent Systems, Tübingen	*Germany*
2019	**Co-organizer**, "Causality in Neuroscience" Workshop at Neuroscience Conference for Young Scientists	*Germany*

Service

2026-	**Reviewer**, MindRL Hub Cognitive Modeling challenge	*AoE*
2026-	**Reviewer**, Psychological Review	*AoE*
2025-	**Reviewer**, International Conference on Machine Learning (ICML)	*AoE*
2024-	**Reviewer**, Neural Information Processing Systems (NeurIPS) main conference + workshops	*AoE*
2023-	**Reviewer**, International Conference on Learning Representations (ICLR)	*AoE*
2023-	**Reviewer**, Cognitive Computational Neuroscience (CCN)	*AoE*
2022-	**Reviewer**, Annual Meeting of the Cognitive Science Society (CogSci)	*AoE*

Invited talks

2026	**AI Security Institute**, In-house visiting researcher talk series	*UK*
2026	**University of Pennsylvania**, Penn Social Psych Speaker Series hosted by the Department of Psychology	*USA*
2026	**University of California, Berkeley**, Cognitive Science Colloquium in the Department of Psychology (Cognitive Area)	*USA*
2026	**Cognitive Science Conference (CogSci)**, Workshop on "Laying the foundations for foundation models of cognition"	*Brazil*
2026	**Massachusetts Institute of Technology**, Weekly Seminar Series at Computational Human Intelligence Focused Research Organization (CHI-FRO) led by Josh Tenenbaum	*USA*
2026	**Indiana University**, Workshop on "Defining the Formal Foundations of Intelligences" at the Center for Possible Minds	*USA*
2026	**Diverse Intelligence Summit**, Workshop on "AI for Scientific Discovery"	*USA*
2026	**Computational and Systems Neuroscience (COSYNE)**, Workshop on "AI for Interpretable Model Discovery in Neuroscience"	*Portugal*
2025	**Cornell-CUNY-UC Davis**, Cross-lab meeting part of an NSF grant on "Collective behavior in smart environments"	*USA*
2025	**New York University**, Concats talk series – the longest-running scientific discussion group in the Department of Psychology, New York University	*USA*
2025	**Princeton University**, Natural and Artificial Minds monthly talk series in the Princeton AI Lab	*USA*
2025	**Princeton University**, Workshop on Automated Discovery of Mind and Brain	*USA*
2025	**University of Osnabrück**, Lab meeting at the Laboratory for Automated Scientific Discovery of Mind and Brain	*Germany*
2024	**Cognitive Science Conference (CogSci)**, Workshop on "In-context learning in natural and artificial intelligence" [URL]	*Netherlands*
2024	**Cognitive Science Conference (CogSci)**, Workshop on "Compositionality in minds, brains and machines: A unifying goal that cuts across cognitive sciences" [URL]	*Netherlands*
2024	**Indian Institute of Science**, Seminar talk at the Center for Neuroscience	*India*
2024	**Princeton University**, Lab meeting at Computational Cognitive Science Lab	*USA*
2023	**Helmholtz Munich**, Joint lab retreat with Explainable Machine Learning Lab	*Germany*
2023	**University of Oxford**, Lab meeting at the Human Information Processing Lab	*United Kingdom*
2022	**Max Planck Institute for Human Cognitive and Brain Sciences**, Joint lab retreat with Doeller Lab	*Germany*
2021	**Stanford University**, Joint lab retreat with Human Information Processing and Causality in Cognition Lab	*USA*
2019	**University of Tübingen**, Workshop on "Causality in Neuroscience" at Neuroscience Conference for Young Scientists [URL]	*Germany*

Teaching

2026	**Guest Lecture**, "Are LLMs the beginning or the end of Cognitive Science?" at the "HAI 101 (Human × Artificial Intelligence)" course at the London School of Economics	*UK*
2026	**Guest Lecture**, "Building symbolic models of learning and decision-making using LLMs" at the "Modeling Choice Behavior" course at the University of Pennsylvania	*USA*
2026	**Guest Lecture**, "LLMs for cognitive modeling" at the "Computational Cognitive Modeling" course at New York University	*USA*
2026	**Guest Lecture**, "Scaling up computational cognitive science using LLMs" at the "Computational Models of Cognition" course at Princeton University	*USA*
2026	**Guest Lecture**, "LLM for cognitive modeling" at the "Current Issues in Statistical Methods and Research Practices for Psychological Science" course at Princeton University	*USA*
2023	**Teaching Assistant**, "Computational Cognitive Science" course at the Graduate Training Center for Neuroscience, University of Tübingen	*Germany*
2022	**Tutorial**, "Meta-Reinforcement Learning" at the Max Planck Institute for Biological Cybernetics	*Germany*
2019	**Lecture cum tutorial**, "Causality in Neuroscience" at the Neuroscience Conference for Young Scientists organized by the Graduate Training Center for Neuroscience, University of Tübingen	*Germany*

Supervision

2026	**Samuel Schapiro**, Research project on "Measuring Combinatorial Creativity in Large Language Models and Humans" at the University of Chicago [Ongoing]	*USA*
2026	**Casper Fermin**, Research internship cum literature thesis on "Bridging Marr's levels of analysis using automated cognitive modeling" at the University of Amsterdam [Ongoing]	*Netherlands*
2026	**Edward Gu**, Research project on "Distilling exploration strategies from probabilistic models into LLMs" at Google – work done during his part-time at Princeton [Ongoing]	*USA*
2026	**Lan Pan**, Research project on "AI-agent driven discovery on large-scale psychology datasets" at the University of Osnabrück [Ongoing]	*Germany*
2026	**Hanbo Xie**, Doctoral research project on "Think-Aloud Reshapes Automated Cognitive Model Discovery Beyond Behavior" at the Georgia Institute of Technology. Led to a publication at the Conference on Cognitive Computational Neuroscience (CCN) [PDF][Ongoing]	*USA*
2025	**Liyi Zhang**, Doctoral research project on "Distilling inductive reasoning into LLMs" at Princeton University. Led to a preprint on arXiv [PDF][Ongoing]	*USA*
2025	**Solim Legris**, Doctoral research project on "Neuro-symbolic models for ARC benchmark" at New York University [Ongoing]	*USA*
2025	**Younes Strittmatter**, Doctoral research project on "Pipeline for Systematic Curation of Human Experiments" at Princeton University. Led to an abstract in the Cognitive Science Conference [PDF]. Released to the public on HuggingFace [URL] [Ongoing]	*USA*
2025	**Daniel Braga**, Master research project on "Automated representational structure discovery" at Princeton University. Led to a publication in the Cognitive Science Conference [PDF] [Ongoing]	*USA*
2026	**Jerry Han**, Bachelor research project on "Universal preconditioning aids human function learning" at Princeton University	*USA*
2026	**Alex Kawaja**, Bachelor research project on "Universal preconditioning aids human function learning" at Princeton University	*USA*
2024	**Elif Kara**, Master research project on "Human decision-making in the wild" at the University of Munich.	*Germany*
2023	**Johannes Schubert**, Master thesis on "Rational Analysis of Optimism Bias" at the University of Tübingen. Led to a publication at the *International Conference on Machine Learning (ICML)* [PDF]	*Germany*
